TUMBLE FEATURE

The TUMBLE FEATURE means that after every spin, winning combinations are paid and all winning symbols disappear. The remaining symbols fall to the bottom of the screen and the empty positions are replaced with new symbols coming from above. New symbols are of the same size as the initial spin result, before tumbles.

Tumbling will continue until no more winning combinations appear as a result of a tumble.

All wins are added to the player's balance after all the tumbles resulted from a base spin have been played.

WILD MULTIPLIER

Whenever at least a WILD symbol hits and it's part of a winning combination, a random multiplier is applied to all winning combinations using WILD during base spins and tumbles. In the base game, possible multiplier values are: 1x, 2x, 3x, 5x, 8x, 10x, 15x, 20x, 30x, 40x or 100x.

FREE SPINS

6x symbol pays 100x total bet.
5x symbol pays 25x total bet.
4x symbol pays 5x total bet.
3x symbol pays 3x total bet.

These are the SCATTER symbols. They can appear on any reel.

Hit 3 or more in any combination of SCATTER or SUPER SCATTER symbols anywhere on the reels to trigger the one of the FREE SPINS features.

The SCATTER symbols do not explode during tumbles.

3 or more regular SCATTER symbols triggers the regular FREE SPINS feature. A combination of regular and any amount of SUPER SCATTER symbols, minimum one, triggers the SUPER FREE SPINS feature.

During the free spins round whenever WILD symbol hits and it is part of a winning combination, a random multiplier from the range selected applies to all winning combinations using WILD.

If the round is a SUPER FREE SPINS feature, before the round starts, randomly 1 to 10 additional free spins are added on top of the chosen option and the round can randomly start from level 2.
Special reels are in play during FREE SPINS feature.

During the feature, a new symbol can randomly hit.

This is the LEVEL UP COIN symbol.

All LEVEL UP COIN symbols that hit are collected in a meter. The first time 3 of them are collected, the round goes to level 2, 3 additional free spins are awarded and the lowest WILD multiplier is removed from the possible multipliers until the end of the round. The second time 3 of them are collected, the round goes to level 3, 3 additional free spins are awarded and the next lowest WILD multiplier is also removed from the possible multipliers until the end of the round. The third time 3 of them are collected, the round goes to level 4, 3 additional free spins are awarded and the next lowest WILD multiplier is also removed from the possible multipliers until the end of the round. After level 4, every time 3 more LEVEL UP COIN symbols are collected, 3 additional free spins are awarded.

If the round was triggered with only SUPER SCATTER symbols, no regular SCATTER symbols in the combination, minimum 3, the triggered FREE SPINS round will be a MAX FREE SPINS feature.
If the round is a MAX FREE SPINS feature, there are no options to choose from before the round starts and instead the round starts with 35 free spins and 100x WILD multiplier for the round. There is no LEVEL UP mechanic during this feature and for every 3 LEVEL UP COINS collected, 3 additional free spins are awarded.
Special reels are in play during the FREE SPINS features.

MAX WIN

The maximum win amount is limited to 8,000x. If the total win of a round reaches 8,000x bet the round immediately ends, win is awarded and all remaining free spins are forfeited.

All wins are multiplied by base bet.

All values are expressed as actual wins in coins.

Free spins and Respin win is awarded to the player after the round completes.
